## PROFILE

Dedicated and detail-oriented Front-End Developer with a year of experience building responsive web applications using HTML, CSS, JavaScript and React.js. Skilled in creating seamless user experiences, troubleshooting technical issues, and optimising workflows. Strong problem-solving abilities and a passion for learning and innovation in software development.

## PROJECTS

### Todo App

A to-do app helps users manage tasks efficiently by allowing them to create, edit, and organize their to-do lists. It typically includes features like adding deadlines, setting priorities, marking tasks as complete, and categorizing tasks. Designed for simplicity and productivity, it keeps users on track with their goals.

### Weather App

A weather app provides weather updates, including current conditions, forecasts, temperature, humidity, and wind speed. It uses APIs to fetch accurate data, displays user-friendly visuals like icons and graphs, and may include features like location-based forecasts, alerts, and historical data. Designed to keep users informed and prepared for any weather changes.
